Convertible Grater

AR+COOK's Convertible Graters will shred, zest and puree foods and spices directly into any dish. Available in long or wide shapes, these graters feature three attachable, stainless steel blades (coarse to super-fine) that snap quickly and easily onto the sturdy zinc base. Each blade's sharp, bi-directional edge allows users to grate in both directions, getting the job done twice as fast. A rubber-tipped bumper on the end of the grater provides slip-free and scratch-free shredding on any work surface. To ensure comfort, **AR+COOK's** signature "Air-gonomic 360" air-injected handle absorbs the shock that occurs with vigorous grating. Long and wide convertible graters are available in the zinc collection in pink, purple, green or orange with a suggested retail price of \$25. The titanium collection for each set is available in black or white with a suggested retail price of \$32. For additional **AR+COOK** products, visit www.artandcook.com.
